## EDUCATION

### Bachelors in Computer Science and Information Technology

Himalaya College of Engineering/ Chyasal, Lalitpur

08/2019 - Present

77% (till 5th Semester)

### High School

New Summit and Universal College/ Maitidevi, Kathmandu

07/2017 - 04/2019

3.16 / 4.0 CGPA

## PERSONAL PROJECTS

### Logistics Management ( Hulak) (05/2023 - 07/2023)

- Implemented a web application for a logistic company that allows users to create shipment orders and track it.
- Managed and deployed the infrastructure on Vercel using Nextjs for **static and server-side generated** web pages with search engine optimization.
- Leveraged Firebase for authentication, database, and storage services.
- [hulak.vercel.app](#)

### Social Media App (Chirp) (03/2023 - 05/2023)

- Designed and developed a web app for a social media platform that allows users to post a chirp, like and reply to other chirps as well as chat with other available users.
- **Structured Firestore database** for managing chats, posts, comments, likes, and authentication.
- Configured type safe project with husky and commit lint and **CI/CD integrations** for auto deployments.
- [Chirp \(chirpy.vercel.app\)](#)

### Restaurant App (Madre) (10/2022 - 12/2022)

- Crafted a web application tailored for a restaurant, granting users the ability to conveniently reserve tables or place takeout orders.
- Executed the deployment and management of the digital infrastructure on the Vercel platform, employing Next.js to dynamically generate web pages that seamlessly blend static and server-side elements.
- [Madre | where something delicious is always cooking.](#)
